

# NEOWARE e370

POWERFUL. SHARP. INTEGRATED.

## POWERFUL

Neoware e370 is one of the most powerful integrated, flat-panel thin clients available. Offering video and application performance comparable to today's most modern PCs, Neoware e370 is powerful and provides the sharpest image in a fully-integrated design.

## SHARP

Image counts with the Neoware e370. The Neoware e370 all-in-one thin client provides a slim profile combined with higher resolution, so you can see the finer details. Also, the 17-inch screen and superior DVI display offers enhanced visibility.

## INTEGRATED

It is not just what appears on the screen that is impressive. The sleek and stylish, fully-integrated flat panel provides a clean and professional look in a small footprint. Although perfect for any customer facing environment, or when looks really count, it is not just the image it projects to others—it is the image on the screen that is really important.

## DVI VIDEO & GREAT LOOKS

Don't let the sleek design fool you—this 17" integrated LCD melds form with function. Neoware e370 incorporates super clear, high-resolution technology that provides superior DVI video quality for all of your application needs. But the choice is yours, use DVI video, or analog, or both.

## ONE PLATFORM, ANY OS

ONE means one platform, any operating system. You can change operating systems, browsers and local software to keep your Neoware e370 thin clients up to the latest specification, protecting your investment. Unlike more limited thin clients, there's no need to replace hardware when your needs change. You will have a migration path to future technologies.

## MORE PORTS, MORE PERIPHERALS

Neoware e370 offers more peripheral support than any other integrated thin client, including serial, PS/2 keyboard and mouse, two USB 2.0 ports, and full internal audio support. This isn't a stripped-down model that limits your choices.

## PIN DROP SILENT

Neoware e370 with Windows CE has no moving parts, not even a fan. It is totally silent, creating a quieter, more comfortable work environment.

## NEOWARE-CLASS SECURITY

Neoware e370 includes unique, Neoware-developed enhanced security for making the Neoware e370 rock-solid in enterprise environments, including a read-only file system that virtually eliminates standard PC viruses.

## GO WIRELESS

With Neoware's optional USB Wireless, Neoware e370 provides access to all your network resources over wireless connections. Get the flexibility to access information wherever and whenever you need it.

## OPEN, NO-TOUCH MANAGEMENT

Open Management gives you choice, flexibility and lower costs. Every Neoware thin client comes bundled with Neoware Remote Manager, a powerful thin client management tool with a friendly, easy to use graphical user interface. Neoware

Remote Manager lets you manage all your desktops – without touching them! Discover, configure, shadow, connection-clone, update and upgrade your thin clients without visiting the desktop. Not only can your Neoware thin clients be managed by Neoware Remote Manager, we also provide software to support IBM Tivoli, Microsoft SMS and Altiris, giving you greater flexibility and the option of using a single management tool to manage both your PCs and thin clients.

## GLOBAL EXPERTISE

Millions of people at thousands of companies around the globe rely on Neoware for high-quality products and superior service. Neoware thin clients are open, secure, reliable, affordable, manageable and obsolescence-free. Neoware has the global expertise to help you migrate to thin clients, integrate mainframe applications, remotely manage your PCs, train your people, and create the best possible solutions enterprise-wide. Whether you're new to server-based computing or expanding your network, Neoware professionals located around the world can evaluate your environment, recommend the optimum solution, and implement that solution on time and on budget.

**NEOWARE. WOULDN'T IT BE GREAT?**
