Avecta® Hi-Level Plinth - AVHP

Avecta® Lo-Level Plinth - AVLP

Avecta® Lo-Level Trolley - AVLTL

The Avecta® range sets new standards in design and presentation for Plasma and other flat screen displays.

Stylish, easy to use, with a high quality finish in either Sinterflex® or silver the Avecta® range harmonises with the best in modern interiors.

The Avecta® stand system offers a range of models both high and low level, trolley or static. Four-way electrical socket provision, cable management, and a platform system are all standard features.

Optional extras include video conferencing mounts that fit above and below the Plasma, a choice of platform sizes and a lockable cabinet.

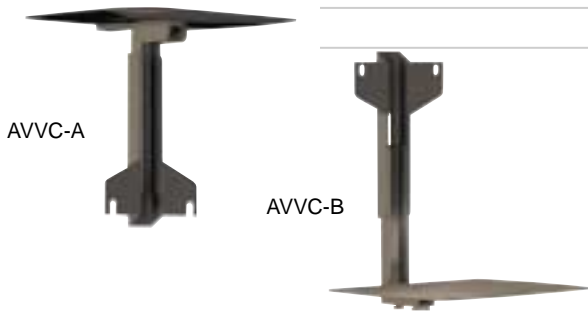

Avecta® Hi-Level Trolley - AVHT

Shown with Locking Cabinet AVLC and Video Conferencing platform AVVC-A

★ When ordering please state make and model of Plasma. Price addition for 60 inch Plasma screens.

Avecta® Hi and Lo level models are supplied complete, consisting of braked wheel trolley or plinth base unit, mast assembly and fixed Plasma mount together with 4-way electrical socket and accessory platform. Finished in Sinterflex® as standard or silver if specified.

VIDEO CONFERENCING PLATFORM

This attachment has a platform on which a Video Conferencing unit or small lap top computer can be placed. There are two attachments, AVVC-A can be fitted above the Plasma display and AVVC-B below.

Platform size is 26x34cm but can be ordered for specific Video Conferencing Units.

Please state make and model for availability.

Order Code
