- Optional Wireless
- In-built 10/100/1000 Networking
- 32 Bit graphics
- Part No. Xtona D12s - F5R6 512MB Flash / 1GB RAM

Green Credentials

With very low average power consumption of 10.3 watts, the Energy Star 5.0 rated Xtona D12s is far more efficient than a PC.

The VXL Xtona D12s, represents a fast boot desktop thin client designed for the Citrix environment. As the flash is rendered locally, this also means significantly reduced local and network server loads for greater operational efficiencies and a richer multi-media experience.

Delivering Citrix™ users all the benefits of accessing XenDesktop® and XenApp™, the Xtona D12s desktop is simplicity itself to set-up, offering true 'plug and play' convenience when connected to the network.

With no virus and malware security issues to worry about, the Xtona D12s also features a very low, 10.3 watts, power consumption which translates into a massive saving when compared to a standard PC (up to \$70 per year per unit).

Compatible with Citrix HDX™, the Xtona D12s comes complete with a 1.6GHz processor, 1GB RAM and 512MB Flash, Six USB's and a DVI-I interface. Backed by VXL's comprehensive worldwide support network, the Xtona D12s comes with a three year warranty as standard.

Xtona

About VXL

VXL is one of the world's largest suppliers of thin clients. Established in 1976, VXL has grown steadily and now has over three hundred people worldwide - with offices in Germany, France, Singapore, India, the United States and the United Kingdom. The company's headquarters are in Bangalore, India.
