Green Credentials

With very low average power consumption of 8 watts, the Energy Star 5.0 rated Itona is far more efficient than a PC. It is also substantially lower than the majority of its competitors.

Remote management included

Every Itona comes with the powerful XLmanage remote management software, Workgroup Edition, making central management a breeze.

The new, highly compact Itona TC 1526 desktop is a major breakthrough in the provision of low cost, virtualisation-capable, thin client computing. Measuring only 19cm (7.5") high, this mid-range desktop offers an affordable solution combined with advanced features and specification well beyond its rivals. For example, the TC1526 incorporates the VMware View client as standard making it "virtualisation ready".

Built to VXL's exacting specifications, the fan-less design ensures the TC1526 is extremely reliable and together with the energy efficient power supply, achieves a very low average power consumption.

Backed by VXL's comprehensive worldwide support network and an impressive three year warranty, the new Itona represents an unbeatable combination of affordability, performance, quality and service.
