Notebooks are becoming ever more popular as the need for ultra portable computing increases. The TL130 series is VXL's new notebook thin client, in conjunction with Lenovo, which takes mobile thin client computing to a new level. The TL130 includes a powerful and productive 1.3GHz processor, a 11.6" HD display and the latest lithium-ion battery technology. All in a neat package weighing just 1.5kg (3.3lbs) with standard 6 cell battery (optional 3 cell battery 1.33kg (2.93lbs)).

The TL130 Notebook is available with either Microsoft Windows XP embedded, Windows Embedded Standard 2009 or WES7 operating systems, so it connects easily to a wide range of servers and networks. With WiFi and wired LAN capability, the TL130 delivers the connectivity, security and central manageability of thin client computing – in a package that's as portable as it is stylish.

“ *Small, light and elegant, with all the benefits of thin client technology. The VXL- Lenovo Thin ThinkPad notebook is the ultimate mobile thin client.* ”
